MARYVILLE, MISSOURI, TUESDAY, NOV. 2, 1915.

NO. 130.

EIGHT AMERICANS WOUNDED TODAY

BULLETS RAIN DOWN ON DOUGLAS, ARIZ., FROM BOTH FORCES.

FIERCE ATTACK MADE BY VILLA AT 1 A. M.

Four of Those in Temporary Hospital Are Soldiers—U. S. Troops Are in Trenches on Border.

Special to The Democrat-Forum.
Douglas, Ariz., Nov. 2.—Eight Americans are in a temporary hospital here today slightly wounded by bullets which have been rained upon this town from machine guns of both the forces of Villa and Carranza.

The Villistas opened a furious attack this morning and bullets fell upon all the buildings in Douglas. The Gadsden hotel and the Bank of Douglas were chief sufferers.

The United States troops guarding the border are in trenches and prepared to take strenuous action. Four of the injured are soldiers.

The Rebels with Villa in command concentrated their fiercest attack upon one section of the trenches of Carranza using twenty-eight pieces of artillery. The forces of the Mexican government were forced to call in their reserve troops but a hot fire from the reserve trenches checked Villa's advance.

Villa, decisively checked in his first assault, has withdrawn, leaving hundreds of dead and wounded behind on the field. They met a withering machine gun fire as they advanced from the southeast and broke into a disorganized flight.

The Carranzistas report forty-five killed and seventy-five wounded among their ranks. Estimates of the loss among the rebels is five times that number. Many of the houses were destroyed in Agua Prieta by Villa's artillery fire.

The government forces will be able to hold out indefinitely, it is believed.

PRESIDENT VOTES AGAIN TODAY.

Wilson Went to Princeton Returning at 6 O'clock Tonight.

Special to The Democrat-Forum.
Washington, D. C., Nov. 2.—President Woodrow Wilson went to Princeton, N. J. again this morning where he will vote in a minor election for members of the legislature and municipal officers.

He is expected back in the capital at 6 o'clock tonight.

SPRINGFIELD CAR SHOPS BURN.

Loss of Frisco Coach and Mill Departments Will Be \$130,000.

Wilmington, Del., Nov. 2.—Fifteen are seriously hurt, several fatally, by a fire in the works of the Dupont Powder company here this morning.

STANDARD DIDN'T DISSOLVE

Trade Commission Begins Investigation of Oil Complaints From All Over United States.
Special to The Democrat-Forum.
Washington, Nov. 2.—The federal trade commission launched a country-wide investigation today of the charges that the petroleum industry of the United States was being controlled by an illegal monopoly.
Complaints have been received from all over the country chiefly concerning former subsidiaries of the Standard Oil company.

ENGLAND ON ROCKS

PREMIER ASQUITH ADMITS SERIOUS FINANCIAL STATE.

MAY SEEK ANOTHER LOAN

"Empire Has Done Best It Knew How," Prime Minister Declares in Sensational Speech.

Special to The Democrat-Forum.
London, Nov. 2.—That the financial position of the British empire is serious was the sensational admission by Premier Asquith in the house of commons in the course of a statement on the war. Even a more important drain to be the heaviest ever known was hinted, and that they might seek another loan in the United States.

Premier Asquith also said British losses have been 377,000 men, and that the government sanctioned the Dardanelles operations after full investigation. The German fleet is locked up in the Baltic and the Germans having gained no ground since April, the Russians are perfectly able to hold the Germans in check there.

"England has done the best that she knew how," said Premier Asquith, "and I am satisfied with the present recruiting scheme. Our financial position compares favorably with that of the enemy's, but we have to prepare to make greater sacrifices to win."

NOW IT'S ROUMANIA

REPORTED THAT ANOTHER CABINET HAS RESIGNED.

GREEK COAST BLOCKADE

Germans to Oppose Landing of Allies Troops by Submarines—Turks Claim a Victory.

Special to The Democrat-Forum.
London, Nov. 2.—An unconfirmed dispatch from Saloniki says that the Roumanian cabinet has resigned. Division as to the policy of Roumania in entering the war has caused the change is true.

To Blockade Greek Coast.

Paris, Nov. 2.—German submarine commanders have been given orders to blockade the Greek coast according to messages from Lissanne. The prevention of the landing of more allied troops is given as the reason for the order.

English Torpedo Boat Sunk.

London, Nov. 2.—The British torpedo boat 96 was sunk in a collision with another boat at Gibraltar. Eight of the crew are missing.

Turks May Have Victory.

Constantinople, Nov. 2.—The war office announces that the warships of the Allies are bombarding the Turkish positions at Seddelbahr.

This indicates that the Turkish forces have gained a big land victory as Seddelbahr was supposed to be in the hands of the allied forces.

Allies Re-enforcements Arrive.

Sofia, Nov. 2.—The British and French transports carrying the re-enforcements for the Balkan army, have arrived at Kavala, Greece, near the Bulgarian frontier.

Seat of Serbian Government Changed.

Saloniki, the Serbian government, has been changed from Nish to Montromitza, on the western frontier. The fighting continues in northern Serbia with unabated fierceness. Heavy losses and violent artillery duels are reported.

The fighting of the French and Bulgarian troops near Krivolak continues with great loss of life. Three Bulgarian attacks have been repulsed.

Bulgarians Capture Monastirserby.
London, Nov. 2.—A dispatch from Athens says that the Bulgarian army has captured Monastirserby.

DAMAGE SUIT APPEALED.

Henry O'Reilly Asks Reversal of \$50 Decision in McDougal's Court.

Henry O'Reilly of Skidmore filed an appeal in the circuit court this morning from the decision of the jury in Justice of the Peace R. L. McDougal's court. Wesley Johnson, plaintiff, was given \$50 damages on the charge of trespassing.

Johnson was a tenant of O'Reilly, living on a farm near Skidmore, just across the road from the home of the owner. In the terms of the rental, it was stipulated that O'Reilly should have a few acres on the rented land for a garden patch. Instead of garden he put in corn.

The two men had a disagreement, and the tenant asserted in the justice's court October 25, that the owner was trespassing by taking the corn from the land which had been rented. The plaintiff asked for \$100 damages for the corn and was given half that amount by the jury.

BUYS LANNING FARM.

Jacob Haaf Purchases 90 Acres Northeast of Pickering.

Jacob Haaf of Hopkins, last week purchased the J. C. Lanning farm of 90 acres northeast of Pickering. The purchase price was \$100 per acre.

Mr. Lanning, accompanied by his wife, will leave this week on a business trip to look after his ranch near Fargo N. D. Mr. Lanning expects to purchase more land near Fargo and move there this coming spring.

Operated On For Appendicitis.

Miss Cora Gehr, a teacher in the Pickering school, was taken to St. Joseph Saturday morning and operated on for appendicitis. The operation was successful and she is improving. Her place in the school is being taken by Miss Mabel Null.

FACTS ABOUT ELECTION TODAY.

Election will be held in nine states, all east of the Mississippi. Woman suffrage will be voted on in New York, Massachusetts and Pennsylvania. Governors will be elected in Massachusetts, Maryland, New Jersey, Kentucky, Mississippi. State legislatures, or parts thereof, will be elected in New York, Massachusetts, Maryland, New Jersey, Kentucky, Mississippi. The Wilson administration is especially interested in the three gubernatorial elections and in the contest for congressman from the Twenty-Third New York districts. Prohibition will come before Ohio voters. South Carolina elects one congressman. New Jersey has minor elections.

TWO MORE HOLIDAYS

CITY TEACHERS WILL ATTEND K. C. CONVENTION THIS WEEK.

Most of Normal Faculty Will Also Go to State Teachers' Meeting—Banquet Friday Night.

The city schools of Maryville will have another holiday for the pupils Thursday and Friday of this week to give all of the teachers opportunity to attend the meeting of the State Teachers' association at Kansas City the last three days of the week.

It is not known how many of the teachers are planning to go. The teachers voted some time ago to attend the county meetings last week instead of the state association. Accordingly a holiday was declared in the city schools last week.

So many of the teachers wanted to go to Kansas City, however, that the school board decided to give another two days this week.

All of the faculty of the State Normal school are enrolled and almost all of them will attend. A banquet for students, faculty and alumni of the State Normal school of Maryville will be given at the Coates house Friday night.

Dr. A. Ross Hill, president of the University of Missouri, is also president of the Teachers' association this year. An attendance of 10,000 and a record for the United States is expected.

CHARGED WITH CATTLE THEFT.

Jacob Skidmore Files Affidavit Against William Wray of Guilford.

An affidavit charging William Wray of Guilford with the theft of two head of cattle was filed in Justice Johnson's court this morning by Jacob Skidmore of the same town. The hearing on the case will be held November 17.

Y. M. C. A. RESOLUTIONS FOR FINCH

Says Former Pastor Was Helpful and Inspiring Friend.

The Young Men's Christian association of the State Normal school, recognizing that Brother Robert L. Finch of the Christian church has been a helpful and inspiring friend, a congenial adviser, and a most worthy advocate of our association; that he has from time to time cheerfully responded to our solicitations for spiritual aid; that he has often sacrificed his own time to speak to our association, and that he has proved a faithful friend of the school at all times; therefore, be it

Resolved, That we, the members of the Young Men's Christian association of the State Normal school, tender our grateful thanks to Brother Finch for his signal service to us; that we express our sincere regrets that he so soon goes from our midst; and that we pray for his continued success in the new field in which he is soon to enter, for we believe what the sacred Scripture says: "A faithful man shall abound with blessings."

ASK BRITISH EXPLANATION

State Department Wants to Know at Once Why Hosking Was Seized and Taken to Halifax.

Special to The Democrat-Forum.
Washington, Nov. 2.—A request for an immediate explanation by the British government to the American state department was cabled today by Secretary Robert Lansing to Ambassador Page in London.

The complaint of the United States is against the holding of the American steamer Hosking, which was seized by British war ships and taken into Halifax. No further action will be taken by the state department awaiting a reply.

ROAD CHANGE ASKED

COUNTY COURT ORDERS SURVEY OF CUT-OFF NEAR RAVENWOOD.

WOULD SAVE 2 BRIDGES

New Steel Bridge Ordered and Radical Alteration of Highway Considered.

The county court ordered the highway engineer to make the necessary surveys at once for a change in road two miles north and a mile west of Ravenwood, by which the road would make a cut off on the north and east of a ditch there instead of making a square turn and making two bridges necessary.

The new road would be on the land of Ira Wells, and \$25 damages and \$125 an acre was ordered to be paid the owner for the land used. The new road will be 40 feet wide. The change in road can be made for less than the cost of one of the two bridges which are needed.

The proposed change in the road a mile northwest of Ravenwood asks that the new highway extend a quarter of a mile east of the river after crossing it and then a quarter south to the old road, instead of turning south and running along the river for a quarter, then east three-quarters into Ravenwood.

Howard Beedle, whose farm would be cut in two parts by the new road, appeared voluntarily in court yesterday and testified. He did not oppose the change strongly, but disliked to have the farm divided, he said.

Men Speak to Court On Change.
R. H. Wells, whose name headed the petition of fifty names for the new road, said that neighbors had offered Beedle \$500 as damages for the change. John Slagle, another member of the delegation, said that the road near the river was under water and full of mud so much of the time that it was dangerous occasionally.

C. A. Hunt pointed out the advantages to the court of having the road on higher ground. It was urged also as a more direct route into Ravenwood. Robert Allen testified that the road was often practically impassable in the river bottom.

J. W. Moss informed the court that a change in the bridge over the river would probably be necessary if the road change was made. The court took the proposed change under advisement.

The court ordered a steel bridge on cement buttments to be built between sections 4 and 5, township 65, range 23, near the north line of that section, and pay \$150 on the erection of the bridge and \$150 on the erection of the bridge and donate work to do the filling necessary.

MRS. HAMMOND DEAD.
Succumbs to Week's Illness—No Funeral Arrangements Made.

Mrs. Alice Hammond of Skidmore died early this morning at the home of Mrs. William Bodle, with whom she had resided for some time. Mrs. Hammond had been ill about a week.

No arrangements will be made for the funeral until after the arrival of Mrs. Hammond's son, Walter Baldwin, of Honey Creek, Ia., who is expected to reach Skidmore tomorrow. Mrs. Hammond's husband died a number of years ago, and her son is the only surviving near relative.

SEWER EMPTIES ABOVE INTAKE

CITY COUNCIL WILL DISCUSS POLLUTION PROBLEM FRIDAY.

WATER NOT DEFILED SAYS CITY ENGINEER

Small Flow Too Well Aerated in Branch From Wabash Trestle to 102 River.

One of the chief propositions which the city council will have to discuss next Friday night in their regular November meeting is the open sewer north of the new fill on the old Wabash trestle.

For 600 feet the embankment on the new trestle fill in the northeast part of town did a "Panama canal" stunt and slid down against the sewer which serves all that part of town north of Sixth street and east of Main.

The sewer formerly was on a low trestle work, and it promptly went along with the slide. Since that time several months ago, the sewer has been emptying into the branch and flowing off in the open to the 102 river. There it enters the river only a little way above the intake for the city water.

Only a third of the water being drawn into the city system is now being taken from the river and the other two-thirds comes from the sand points far below the surface. But one-third of the water in the city mains comes out of the river only a little way below where the branch with the sewage enters.

This is not as bad as it seems, however, for City Engineer Flynt says that the complete aeration of the small amount of sewerage during the three and a half miles of the branch before it enters the river, makes the water of the 102 river less polluted than is the Mississippi at St. Louis because of the Chicago sewage.

The sewer serves the part of town which is most thinly settled and therefore does not have a large flow. The odor which comes from the open place at the trestle is the most serious part of the difficulty, according to Mr. Flynt.

Mayor U. S. Wright took up the matter with the Wabash after the last council meeting, pointing out in his letter the objections mentioned above. The company replied that it desires more time. The length of time desired was not stated, but it is understood from talks with various officials of the road by the city engineer that the Wabash wishes to let the matter go until spring, when it is believed that the fill will have settled completely.

After telling Mayor Wright in their letter that the flow of the sewer is so small and that few live in the vicinity whom the odor can inconvenience, the officials of the Wabash state that their engineer has investigated the pollution of the river and has reported that it is negligible.

When the sewer is placed for the 600 feet it will have to be in about a 6-foot cut instead of on a trestle. The Wabash points out to the mayor that the work probably would have to be done all over again if the new sewer was put in now, since further slides of the embankment are expected.

The fill has sunk many feet below the level of the track now and a force of men is kept busy blocking up the trestle work. Mr. Wright said that it is probable that nothing will be done about the matter, as making a railroad company do anything which they do not want to do is rather an endless matter.

It is probable that the affair would have to be fought in the courts and would be dragged out until next spring anyway, when the Wabash will have no objection to replacing the sewer.

WHAT THE GAZETTE THINKS.

From St. Joseph Gazette (Rep.)

Somebody has suggested Judge "Bill" Ellison of Maryville as the nominee of Missouri Democracy for governor next year.

But we do not believe that Judge "Bill" Ellison will be named by the Bourbonism of the state. He is too good a man; Missouri Democracy never in all its existence chose so able a man as its favorite for the high place of executive of the commonwealth. It would be hard to imagine the old party reforming in these latter days.

It is not nice to speak of him as Judge "Bill" Ellison. Yet that is what his constituents call him—out of court. You see, they knew him as "Bill" before he became an occupant of the bench—before, indeed, he had won his splendid spurs as a lawyer. They got to calling him "Bill" when he was just a young fellow trying for honors in practice at the bar. And the more success he won, the greater was the amount of affection all the people who knew him put into that little, homely, inspiring abbreviation of William. And so it went on until, when suddenly "Bill" was elevated—or elevated himself—to the bench of the Fourth judicial circuit of Missouri, they just couldn't learn to refer to him by any other name.

He has been at that post for many years. He is a Democrat, all right—the Lord only knows why. He is as smart as a Republican—and as a public official has a record such as we naturally expect none but Republicans to make. It seems almost uncanny that a Democrat should be that way, doesn't it?

And now they are talking—some of the Democrats—of Judge "Bill" Ellison as their party's nominee for governor of Missouri next year. Of course, though, it is only talk. The leaders won't really permit him to be named.

MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons From Liver and Bowels at Once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the California Fig Syrup Co."

He is too good a man. Think how the Democracy of the state would feel supporting a candidate for whom the rank and file didn't feel obliged to apologize with every other campaign breath they drew!

This is great weather for building roads and filling coal bins.

If Roumania determines to throw her half million mountain fighters into the war on the side of the allies, it will be a hard blow to Germany and her allies.

Poor Mrs. Galt. She has gotten into the presidential circle and now she has to be guarded by secret service detectives. Fame is not without its disadvantages.

A man who came across the west half of the county Sunday in a wagon was asked how the roads were. "Fine," he answered, "but I didn't get to use them much for I was out at the side letting autos pass most of the time."

What are fourth district Democrats going to do next year besides run for the congressional nomination?—St. Joseph Gazette.

They are going to elect their nominee.

The German-American press has lost two of its leading men this week. Herman Ridder, editor of the New York Staats Zeitung, and a national character, died Monday, and Edward L. Pretorius, publisher of the St. Louis Times and the Westliche Post, committed suicide because of ill health the same day. Both were men of wealth and ability, who had won prominence by hard work.

MARYVILLE HAS THE MAN.

The Democrats have had meetings at St. Joseph, Cape Girardeau, Nevada, Marshall and Hannibal during October and each of them was marked by a great out-pouring of the people, accompanied by genuine enthusiasm. The Democratic voters of Missouri are all of one mind—they want a man for governor in whom the people have confidence. The Democratic candidate for governor should be a man with a vision and an ample supply of judgment and backbone. There is to be another rally at Sedalia next Tuesday—Chillicothe Constitution.

Moberly's Good Roads.

Do you know of finer roads than the Moberly eight mile district oiled roads? We do not bar any make of roads in the comparison either. Not only are they perfect but practically dustless.—Moberly Democrat.

BEST WAYS TO COOK BACON

Meat is Too Frequently Wasted Because Insufficient Thought is Bestowed Upon It.

Bacon is an extravagant article in the list of cooking materials because of its increased price and the fact that often twice as much as is needed is used for garnishing other foods.

This delectable meat will probably never be low-priced again, yet it will always be a great addition to the menu, so that to know the best ways of using it without waste is a necessity if one is to cook well.

The drippings from bacon are the best sort of shortening for cookies and everyday pastry; therefore, every bit of the fat that renders out in cooking should be strained and saved for such uses. This reduces the first cost of the meat very much, for the shortening bill has soared with the price of pork.

All left-over bacon makes excellent seasoning for meat loaves and may be nicely browned for garnishing by being dipped into egg batter and then into fine crumbs and placed in a hot oven, on a bacon rack, until golden brown.

If you have never broiled bacon on a rack you have a culinary treat in store, for even inferior bacon becomes fine tasting when broiled so and best bacon delicious. Any wire broiler or oven rack may be used; the slices are spread out, just touching, not covering, one another, on it and placed over a dripping pan in a hot oven.

Sometimes bacon is as salty as salt can make it and requires soaking in hot water after it is cut; after such treatment the salt is not too apparent.

The best of sausage can be made at home with the following ingredients: One pound of veal, one pound of fresh pork, one cupful of bacon chopped and one cupful of cracker crumbs. Grind the veal and pork fine, add crumbs and bacon, seasoning of pepper and sage with little salt, as the bacon supplies this. Grind the mixture again and shape into cakes and fry. Cold meat of any sort may be used in place of the veal.

A Toast to the Horse.

We don't know who wrote this toast to the horse, but it is a good one and worthy of being placed beside Senator Vest's famous eulogy on the dog:

"Here's to that bundle of sentiment nerves, with the heart of a woman, the eye of a gazelle, the courage of a slave the proud carriage of a king and the blind obedience of a soldier; the companion of the desert plain, that turns the moist furrows in the spring in order that all the world may have abundant harvest; that furnishes the sport of kings, that with blazing eyes and distended nostril fearlessly leads our greatest generals through carnage and renown, whose blood forms one of the ingredients that go to make the ink in which all history is written, and who finally, in black trappings, pulls the proudest and the humblest of us to the newly sodded threshold of eternity."

Spends Day at Quitman.

"THE TRAIL OF THE LONESOME PINE."

Shown at the Empire Theater Tomorrow Night.

"The Trail of the Lonesome Pine," with Olga Worth in the role of June, which comes to the Empire theater on Wednesday, Nov. 3, shows the brilliant and popular dramatist, Eugene Walter, at his best. He has faithfully mirrored the delightful scenes of the book, and the scenic frame and stage setting arranged are gorgeous, indeed.

June's great love for Jack Hale, the jealousy of her cousin, Dave; the rough yet sincere affection of her father, Judd Tolliver; the humorous simplicity of Uncle Billy, and Ole Hun; the quiet strength of Hale; the feudal scenes, the guiding motif of the opposed sides, and the picture of the mountaineer's household, are strikingly impressive by the mobility and breadth of their portrayal.

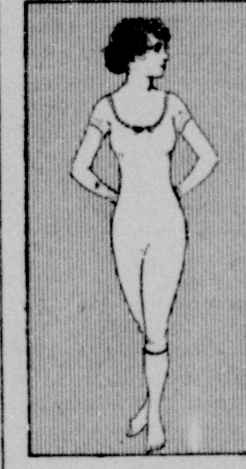

Neither pains nor artistic ability have been spared to give Mr. Walter's play a truly fine presentation, and it enjoyed long run in Boston, Philadelphia and other cities to capacity business. You see what you imagined in the book, the story of romantic love developed in the heart of a primitive girl in the fastnesses of high encircling, purple mountains, the touch of lofty skies, with the lone pine bowing homage to the royal wind, and the mountain brook's silver gleam—June's mirror. The play will be presented by New York cast. The production is a massive one.

Imperfectly fitting underwear, besides being uncomfortable, interferes with good dressing. The perfectly fitting costume is built from the inside outward.

GLOBE Tailor Made Union Suits

are really tailor-made. They fit perfectly—not by too much stretching, but because they are correctly designed. Your gown will fit well over a Globe Union Suit, and you will be comfortable wherever you are or whatever you are doing.

Globe is fine underwear. Made from the finest yarns obtainable and beautifully finished in every detail.

Globe is strong underwear. The fabric is made so by a secret process. The seams are double-sewed. Buttons sewed on tight with six-cord thread. Button-holes strong—won't tear out or get too large.

Globe fabric won't shrink, whether cotton, mercerized or worsted. It keeps soft and elastic until it is worn out.

Made in all styles—Globe Union Suits are made in every length of sleeve (from no sleeve to full length) and every

length of leg (from short drawer to full ankle length); and in all possible combinations of sleeve and leg with high neck, Dutch neck, or low neck. The pictures show only a few of the many combinations.

Globe is, therefore, adapted to all kinds of dress and times of day—from the every-day around-the-house, negligee or street costume to the evening gown. For women and girls in all their activities.

\$1 or more, according to weight and fabric whether cotton, mercerized, or worsted.

SKIDMORE ALSO CELEBRATED.

Streets Were Littered Until Vehicles Passed With Difficulty.

The smaller towns of the county took it upon themselves to preserve the old traditions of All Hallows' Eve Saturday night. At Skidmore three buggies found themselves up on the band stand Sunday morning.

And Main street was covered with everything movable. Two dray wagons were turned over on the sidewalk. One carriage was hoisted to the top of a box car. A man who came from Skidmore to Maryville Sunday morning said that every member of the school board must have been called to the service Monday morning in order that school might begin.

"GAZETTE DE FRANCE" QUILTS.

Paper at Paris Almost 300 Years Old, Lost Prestige by War.

Paris, Nov. 2.—The "Gazette" de France" of Paris, the oldest French newspaper, has ceased to exist. A week ago the last issue of the venerable sheet appeared, as the Parisians in these troublesome times no longer had any use for it.

The "Gazette" was founded in 1631, and for more than two centuries greatly influenced public opinion, but it lost its power by its ultra-conservative policy. It could or would not understand the aims of modern times, and during the ten or fifteen years its circle of readers became steadily smaller. Since the present war began it lost the few subscribers it still had, because it did not join the rest of the press in the cry for the destruction of Germany, and even doubted that the triple entente would be victorious.

PHONES—OFFICE 42 HOME 698

Dickey Dinner Party.

Mr. and Mrs. Walter Dickey, living east of Maryville, were dinner hosts yesterday, when they entertained Mr. and Mrs. Charles Moore and Mr. and Mrs. William Edwards.

C. E. to Meet.

The regular monthly business meeting of the Christian Endeavor society of the First Christian church will be held at 7:30 o'clock tonight at the church.

League Gives Entertainment.

The Epworth League of the Methodist church of Quitman held a business meeting and social Saturday night in the Woodmen hall. A program was given during the social hour and Halloween games played.

Mr. and Mrs. May Entertain.

Mr. and Mrs. James May entertained informally Sunday evening at their country home, northeast of the city, their guests being Miss Nellie Wagner, Miss Ada Wagner, Miss Marie Livasy, Miss Julia Toohar, Charles Wagner and William Dalrymple.

Guests at Lyle Home.

Mr. and Mrs. Eugene Lyle, living south of the city, entertained a number of friends at their home Sunday. Those in the party were Mr. and Mrs. Eugene Klaas of Parnell, Mr. and Mrs. C. S. Mow of Ravenwood, Mr. and Mrs. Miles Nicholas and daughters, Laura Belle and Virginia, and Mr. and Mrs. Guy Mutz and son, Walter.

Montgomerys Entertain.

Mr. and Mrs. J. F. Montgomery were the hosts of a dinner party given Sunday noon at their home, on South Main street, at which they entertained Mr. and Mrs. Carl Scammon of Rock Port, and Mrs. Scammon's mother, Mrs. J. T. Pierce of Abington, Ill.; Mr. and Mrs. Bruce Montgomery, Mr. and Mrs. Will J. Montgomery and Miss Ruth Montgomery.

Gives Masquerade.

Miss Mary Springer gave a party Friday night at the Springer farm, west of Quitman, entertaining about forty of her friends with a Halloween masquerade. The hours were spent with games and dancing and a supper was enjoyed. The home was attractive with decorations of autumn leaves and jack o'lanterns. Leslie Slack was awarded the prize for the most fantastic costume.

Old Friends Meet.

Mr. and Mrs. Hiram Lyle, living near Bolckow, entertained a party of friends Sunday, who were Mrs. Allie George of Gotebo, Okla., Mrs. Ida Bauman of Savannah, Mrs. C. S. Mow of Ravenwood, Miss Gertrude Lyle of Maryville and Emmett Lyle. Mrs. George and Mrs. Bauman are sisters of Mrs. Lyle and girlhood chums of Mrs. Mow. It was the first time in twelve years that Mrs. George had met with her old friends, and the visit was very enjoyable.

House Party at Elwood.

Miss Vivian Lyle entertained with a week-end house party, beginning Friday, at Elwood, the Lyle country home. All sorts of Halloween pranks were indulged in, including ghost walks, attended by weird lights. Various explorations and surprises were frequent. The frolic was concluded on Friday evening with a relay drive. Those comprising the party were Misses Marie Alden, Mabel Pixler, Wilda Keef, Blanche Alexander, Marie Price, Mabel Fraser and Vivian Lyle.

Surprise Party.

Mr. and Mrs. David Dalrymple of Pickering gave a surprise party Saturday night for the pleasure of their daughter, Clara. Informal games and supper were enjoyed. Reed-Monette Wedding.

The following regarding the wedding of a former Maryville young woman, whose marriage was announced in The Democrat-Forum of October 21, is taken from the Los Angeles (Cal.) Examiner of October 22:

"M. J. Monette, a local banker, and Mrs. Ethel M. Reed, widow of the late H. A. Reed, a former business man of Los Angeles, were married at 7:30 o'clock last evening by Dr. Charles Edward Locke, pastor of the First Methodist church, in the study at the church. A few friends and relatives of the couple were present. Immediately after the ceremony Mr. and Mrs. Monette left for a wedding trip to San Francisco. The bride and groom are members of the First Methodist church. Mrs. Reed is a woman in her early thirties, of striking presence and possessing considerable property. She and Mr. Monette met three years ago when Mrs. Reed lived in her residence at 945 Manhattan place, less than a block from Mr. Monette's handsome home, at 951 Western avenue. A year later Mrs. Reed sold her home and rented the Monette place during his absence in Europe. Mrs. Reed, her cousin, Miss Lillian Clark, and her housekeeper, have continued to occupy the Monette home. Mrs. Reed and her late husband came from Chicago nine years ago. Mr. Reed died four years ago. Mr. Monette is vice president of the Citizens' National bank and Citizens Trust and Savings company and several Los Angeles clubs."

Mrs. Monette is the eldest daughter of Mr. and Mrs. A. T. Clark of the Linville hotel. She and Mr. Monette visited in this city last Christmas.

TAKE CARE OF SPOILED SILAGE.

Soured Ensilage Dangerous to Some Farm Animals.

Spoiled silage may not seem to injure some farm animals, but it is dangerous to others, and has lost much of its food value for all. The loss results almost entirely from mold, according to C. H. Eckles of the Dairy Department of the University of Missouri, and could have been prevented, although the only thing to do now is to study what has happened in your silo and learn how to do better next year.

Unless the silo was sealed or feeding was begun immediately after filling, six inches to a foot at the top is sure to be spoiled. It should be put where it cannot be reached by any

Lot One—Trimmed Hats worth up to \$5.00, this week at \$2.50.
Lot Two—New style trimmed hats worth to \$7.50, this week at \$3.95

The above money-saving values are for this week only. Come now.

farm animals. Lower down, the presence of spoiled silage always indicates the presence of air as the molds which give it the appearance of rotten manure could not work without air. The lack of sufficient water in filling is the commonest cause of the presence of air, but sufficient tramping in an air-tight structure is also necessary. Red mold which sometimes causes alarm is no more dangerous than the less conspicuous forms which often pass unnoticed. Among the various publications on silage which may be secured by writing to the Agricultural Experiment Station, Columbia, Missouri, are: Bulletin 112, Corn Silage for Fattening Two Year Old Steers; Circular 67, How to Build a Gurler Silo; Circular 72, Silage for Horses and Mules.

CORN LETTER NO. THREE.

What A. R. Hills Has to Say—Save Your Seed Corn and Now Is The Time.

A. R. Hills of this city, issued another corn letter being number three. It is as follows:

It has been some time since I last wrote you in regard to corn raising. It was my intention to have written just before the laying by of the corn so as to drop a few hints that would be useful at that time, but Jupiter Pluvius stepped in at that time and drove us from the field. The continued wet weather caused many to lose all their crops, and interest in the corn got so slack, it seemed best to discontinue the series of Corn Letters until another year.

However, the rains continued, also cloudy weather, which was very favorable to get the spur, or fulcrum roots into the ground and the result was a very good crop on the dry ground.

As I have spoken before of the Primary and Secondary roots, I will now say something of the Spur roots. They are the roots that spring from the first few joints just above the ground. Upon striking the ground they become very fibrous. Then if the ground has been well worked they have a great deal to do with making what we call well filled ears—that is, the grains will be long, and the meat in the kernel will be hard and horn-like to the very crown.

A good corn raiser knows that darkness and wet, cloudy days cause the fulcrum or spur roots to burst from the joints and come to his assistance. Of course the farmer can not cause the days to be wet and cloudy, but he can produce the darkness by throwing the soil to cover the lower joints, during the last plowing.

The pollen or dust-like substance in the tassels is generally produced in great abundance, but this year the silk or style had to grow and wait a long while on the pollen for fertilization. The early corn had so much silk to grow that in some instances it covered the tip of the ear in such a way that the silk was not all fertilized so the tip was left bare, or was poorly filled as we say.

Among the many things noticed in the corn fields this year, we have the following:

The man who plowed early and deep, turning under a great deal of trash and coarse manure, then Surface planted his corn had a smile on his face that would not come off.

I thought we made \$5.00 per day hoeing corn during the rainy season. Four acres of checked corn could be hoed as easily as one of drilled. The wet weather seemed to beat everything else in preventing the damage by the corn ear worm.

During the recent high wind in the vicinity of Maryville, the checked corn seemed to stand up as well as the drilled.

Saving seed corn is a most necessary thing this year. The time to do it is right now, while you are thinking about it. Visit some man's field who believes in planting in April and lay in a good supply of seed for next spring it will be very scarce, and the price high.

In spite of all we can do there will be a good deal of sap to stay in the cob which will cause mould to form, which will work out upon the grain and injure it for seed. On this account I advise to have the seed corn all shelled before the holidays.

Those having borrowed seed corn from me may return the same to me at the Normal School Corn Show, the 27th of October, or leave it at my house or any place in Maryville.

Please mark 10 ears to be judged, as this is the best we can do for lack of space.

In case of failure to mark the ears I will select them myself and they will be passed upon by the regular judge at the Corn Show.

The prize money amounts to \$25.50, and as there are but few to compete for it, you can easily win a part of it by taking a little pains.

Rent for a Share. Both owner and tenant get smaller income from cash rental contracts than when the work is for a share, according to figures gathered from 699 farms in Johnson county by the Missouri College of Agriculture. The man who farmed only his own land made 7.8 per cent on his investment.

Judge Conn to Convention. Probate Judge W. H. Conn is expecting to go to Sedalia the first week in December for the second annual meeting of the probate judges of Missouri.

A two-day session will be held at which former Supreme Judge Henry Lamm of Sedalia will be the principal speaker.

RECEPTION FOR PASTOR AND WIFE IN LAST FAREWELL.

All Organizations of Christian Church Had Speakers on Program at Church Last Night.

A large crowd gathered in the parlors of the First Christian church last night in a farewell reception to Rev. and Mrs. Robert L. Finch, who leave the pastorate of the church to go to Milwaukee next Sunday.

After a social time, during which punch was served, the crowd went into the auditorium, where a program was given. Representatives of all the activities of the church spoke in honor of the former pastor and his wife. They were:

Mrs. C. E. Roberts, C. W. B. M.; Mrs. Henry Westfall, Ladies' Aid; Miss Parrish, C. E.; Mrs. H. B. Schuler, Junior C. E.; Miss Bessie Porter, Mary Lawrence Circle; Miss Harriett Van Buren, Mission Circle; F. P. Robinson, Sunday school; Rev. G. S. Cox, president of the Ministerial Alliance, for the other churches.

Miss Gertrude Wright sang a solo, and two duets were given by Mrs. F. P. Robinson and Mr. Cox. Mr. Schuler and Mrs. Finch gave a piano duet, and music throughout the evening was furnished by the orchestra of the Sunday school.

A present of a fifty-dollar gold piece was made to Rev. and Mrs. Finch by Ellis G. Cook on behalf of the friends of the two in the city. A basket of flowers and a lunch for the trip today were presented to the departing friends. Rev. and Mrs. Finch left this morning.

JOPLIN WOMAN IS RESTORED BY REMEDY

Mrs. Hillman Took Treatment Two Years Ago—Has Been Well Ever Since.

Mrs. Ida Hillman of Joplin suffered from stomach ailments for twelve years. She followed the advice of several expert physicians and took a great deal of medicine. Two years ago she discovered Mayr's Wonderful Remedy—and she has been well since. Mrs. Hillman took but a few doses. She writes:

"I suffered with stomach trouble almost twelve years. I tried many doctors, but received no help until, while in Cleveland, Ohio, I read your notice in a paper and concluded to try Mayr's Wonderful Remedy. Since then I have felt like a new woman."

"I took only four bottles, but that was all that was needed to make me well. It has been almost two years and I have had no return of my trouble."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

TABLET FOR INDIAN

FRIEND OF WHITES

Seattle Professor Speaks to

Honor Chief Pat Kanim.

Seattle, Wash.—Professor Edward S. Menay of the University of Washington is arousing public interest in the memory of old Chief Pat Kanim of the Snoqualmie and Snohomish Indians. Chief Pat, a staunch friend of the early whites, is one of the forgotten heroes of pioneer days, and Professor Menay wants his grave marked with a suitable monument.

In the days when settlers had reason to fear the lurking red faces in the deep forests Chief Pat Kanim's people were powerful where Everett now stands. It is not known just when the chief died, but he was buried on a bank of the Snoqualmie river.

When the grave was threatened by the overflowing river relatives moved the remains to the little cemetery of the Tualip Indian reservation, where many of the tribes he ruled in power now live in humble homes.

Canero's "History of Washington" tells of the chief's craftiness in driving Glasgow and Rabbeson from the first settlement on Whidby Island in 1848. He made a great drive with dogs and secured sixty deer for a feast of assembled warriors. He counseled in favor of driving the white men out of the country.

Glasgow and Rabbeson went back to Tumwater, and the next year Pat Kanim led an assault on Fort Nisqually. While Pat Kanim was parleying inside the stockade his brother was killed leading an attack by the Indians. Pat Kanim was spared, and in 1850 he made a trip to San Francisco in a sailing vessel. What he saw on that journey made him resolve to become a friend of the white man. He faithfully lived up to that resolution for the rest of his life.

Rexall's Glycerin

We guarantee them to be satisfactory to you. Sold only by us, 10 cents.

Orean-Henry Drug Co.

Letter to Mr. E. L. Andrews, Maryville, Mo.

Dear Sir: You sell a good many things by the gallon. Being a decent man, you give full measure.

You know what we mean: you know that short weight and short measure are common among—well, we hope there are no short measures and weights in your town.

There are, though, Ribbons and laces and trimmings, sold by the "dozen," measure nine or ten yards. There is no complaint, because "they all do it." You have the same plague in your goods—nearly everybody, canned or bottled, cheats in the quantity. Almost nobody gives full weight in a factory package!

We are one of the almost nobodies. We sell paint, by the gallon, to paint your house; and our gallon is just the same size as yours that you measure vinegar with—231 cubic inches.

Good paint, too—Devco lead-and-zinc—takes fewer gallons than mixed paint and wears twice as long as lead-and-oil.

You own a house. That's why we are writing to you.

Yours truly,

EIGHT AMERICANS WOUNDED TODAY

BULLETS RAIN DOWN ON DOUGLAS, ARIZ., FROM BOTH FORCES.

FIERCE ATTACK MADE BY VILLA AT 1 A. M.

Four of Those in Temporary Hospital Are Soldiers—U. S. Troops Are in Trenches on Border.

Special to The Democrat-Forum.

Douglas, Ariz., Nov. 2.—Eight Americans are in a temporary hospital here today slightly wounded by bullets which have been rained upon this town from machine guns of both the forces of Villa and Carranza.

The Villistas opened a furious attack this morning and bullets fell upon all the buildings in Douglas. The Gadsden hotel and the Bank of Douglas were chief sufferers.

The United States troops guarding the border are in trenches and prepared to take strenuous action. Four of the injured are soldiers.

The Rebels with Villa in command concentrated their fiercest attack upon one section of the trenches of Carranza using twenty-eight pieces of artillery. The forces of the Mexican government were forced to call in their outposts but a hot fire from the reserve trenches checked Villa's advance.

Villa, decisively checked in his first assault, has withdrawn, leaving hundreds of dead and wounded behind on the field. They met a withering machine gun fire as they advanced from the southeast and broke into a disorganized flight.

The Carranzistas report forty-five killed and seventy-five wounded among their ranks. Estimates of the loss among the rebels is five times that number. Many of the houses were destroyed in Agua Prieta by Villa's artillery fire.

The government forces will be able to hold out indefinitely, it is believed.

ENGLAND ON ROCKS

PREMIER ASQUITH ADMITS SERIOUS FINANCIAL STATE.

MAY SEEK ANOTHER LOAN

"Empire Has Done Best It Knew How," Prime Minister Declares in Sensational Speech.

Special to The Democrat-Forum.

London, Nov. 2.—That the financial position of the British empire is serious was the sensational admission by Premier Asquith in the house of commons in the course of a statement on the war. Even a more important drain to be the heaviest ever known was hinted, and that they might seek another loan in the United States.

Premier Asquith also said British losses have been 377,000 men, and that the government sanctioned the Dardanelles operations after full investigation. The German fleet is locked up in the Baltic and the Germans having gained no ground since April, the Russians are perfectly able to hold the Germans in check here.

"England has done the best that she knew how," said Premier Asquith, "and I am satisfied with the present recruiting scheme. Our financial position compares favorably with that of the enemy's, but we have to prepare to make greater sacrifices to win."

DAMAGE SUIT APPEALED.

Henry O'Reilly Asks Reversal of \$50 Decision in McDougal's Court.

Henry O'Reilly of Skidmore filed an appeal in the circuit court this morning from the decision of the jury in Justice of the Peace R. L. McDougal's court. Wesley Johnson, plaintiff, was given \$50 damages on the charge of trespassing.

Johnson was a tenant of O'Reilly, living on a farm near Skidmore, just across the road from the home of the owner. In the terms of the rental, it was stipulated that O'Reilly should have a few acres on the rented land for a garden patch. Instead of garden he put in corn.

The two men had a disagreement, and the tenant asserted in the justice's court October 25, that the owner was trespassing by taking the corn from the land which had been rented. The plaintiff asked for \$100 damages for the corn and was given half that amount by the jury.

TWO MORE HOLIDAYS

CITY TEACHERS WILL ATTEND K. C. CONVENTION THIS WEEK.

Most of Normal Faculty Will Also Go to State Teachers' Meeting—Banquet Friday Night.

The city schools of Maryville will have another holiday for the pupils Thursday and Friday of this week to give all of the teachers opportunity to attend the meeting of the State Teachers' association at Kansas City the last three days of the week.

It is not known how many of the teachers are planning to go. The teachers voted some time ago to attend the county meetings last week instead of the state association. According to a holiday was declared in the city schools last week.

So many of the teachers wanted to go to Kansas City, however, that the school board decided to give another two days this week.

All of the faculty of the State Normal school are enrolled and almost all of them will attend. A banquet for students, faculty and alumni of the State Normal school of Maryville will be given at the Coates house Friday night.

Dr. A. Ross Hill, president of the University of Missouri, is also president of the Teachers' association this year. An attendance of 10,000 and a record for the United States is expected.

Y. M. C. A. RESOLUTIONS FOR FINCH

Says Former Pastor Was Helpful and Inspiring Friend.

The Young Men's Christian association of the State Normal school, recognizing that Brother Robert L. Finch of the Christian church has been a helpful and inspiring friend, a congenial adviser, and a most worthy advocate of our association; that he has from time to time cheerfully responded to our solicitations for spiritual aid; that he has often sacrificed his own time to speak to our association, and that he has proved a faithful friend of the school at all times; therefore, be it

Resolved, That we, the members of the Young Men's Christian association of the State Normal school, tender our grateful thanks to Brother Finch for his signal service to us; that we express our sincere regrets that he so soon goes from our midst; and that we pray for his continued success in the new field in which he is soon to enter, for we believe that the sacred Scripture says: "A faithful man shall abound with blessings."

ASK BRITISH EXPLANATION

State Department Wants to Know at Once Why Hosking Was Seized and Taken to Halifax.

Special to The Democrat-Forum.

Washington, Nov. 2.—A request for an immediate explanation by the British government to the American state department was cabled today by Secretary Robert Lansing to Ambassador Page in London.

The complaint of the United States is against the holding of the American steamer Hosking, which was seized by British war ships and taken into Halifax. No further action will be taken by the state department awaiting a reply.

ROAD CHANGE ASKED

COUNTY COURT ORDERS SURVEY OF CUT-OFF NEAR RAVENWOOD.

WOULD SAVE 2 BRIDGES

New Steel Bridge Ordered and Radical Alteration of Highway Considered.

The county court ordered the highway engineer to make the necessary surveys at once for a change in road two miles north and a mile west of Ravenwood, by which the road would make a cut off on the north and east of a ditch there instead of making a square turn and making two bridges necessary.

The new road would be on the land of Ira Wells, and \$25 damages and \$125 an acre was ordered to be paid the owner for the land used. The new road will be 40 feet wide. The change in road can be made for less than the cost of one of the two bridges which are needed.

The proposed change in the road a mile northwest of Ravenwood asks that the new highway extend a quarter of a mile east of the river after crossing it and then a quarter south to the old road, instead of turning south and running along the river for a quarter, then east three-quarters into Ravenwood.

Howard Beedle, whose farm would be cut in two parts by the new road, appeared voluntarily in court yesterday and testified. He did not oppose the change strongly, but disliked to have the farm divided, he said.

Men Speak to Court On Change.

R. H. Wells, whose name headed the petition of fifty names for the new road, said that neighbors had offered Beedle \$500 as damages for the change. John Slagle, another member of the delegation, said that the road near the river was under water and full of mud so much of the time that it was dangerous occasionally.

C. A. Hunt pointed out the advantages to the court of having the road on higher ground. It was urged also as a more direct route into Ravenwood. Robert Allen testified that the road was often practically impassable in the river bottom.

J. W. Moss informed the court that a change in the bridge over the river would probably be necessary if the road change was made. The court took the proposed change under advisement.

The court ordered a steel bridge on cement buttments to be built between sections 4 and 5, township 65, range 23, near the north line of that section, and pay \$150 on the erection of the bridge and \$150 on the erection of the bridge and donate work to do the filling necessary.

MRS. HAMMOND DEAD.

Succumbs to Week's Illness—No Funeral Arrangements Made.

Mrs. Alice Hammond of Skidmore died early this morning at the home of Mrs. William Bodle, with whom she had resided for some time. Mrs. Hammond had been ill about a week.

No arrangements will be made for the funeral until after the arrival of Mrs. Hammond's son, Walter Baldwin, of Honey Creek, Ia., who is expected to reach Skidmore tomorrow. Mrs. Hammond's husband died a number of years ago, and her son is the only surviving near relative.

SEWER EMPTIES ABOVE INTAKE

CITY COUNCIL WILL DISCUSS POLLUTION PROBLEM FRIDAY.

WATER NOT DEFILED SAYS CITY ENGINEER

Small Flow Too Well Aerated in Branch From Wabash Trestle to 102 River.

One of the chief propositions which the city council will have to discuss next Friday night in their regular November meeting is the open sewer north of the new fill on the old Wabash trestle.

For 600 feet the embankment on the new trestle fill in the northeast part of town did a "Panama canal" stunt and slid down against the sewer which serves all that part of town north of Sixth street and east of Main.

The sewer formerly was on a low trestle work, and it promptly went along with the slide. Since that time several months ago, the sewer has been emptying into the branch and flowing off in the open to the 102 river. There it enters the river only a little way above the intake for the city water.

Only a third of the water being drawn into the city system is now being taken from the river and the other two-thirds comes from the sand points far below the surface. But one-third of the water in the city mains comes out of the river only a little way below where the branch with the sewage enters.

This is not as bad as it seems, however, for City Engineer Flynt says that the complete aeration of the small amount of sewerage during the three and a half miles of the branch before it enters the river, makes the water of the 102 river less polluted than is the Mississippi at St. Louis because of the Chicago sewage.

The sewer serves the part of town which is most thinly settled and therefore does not have a large flow. The odor which comes from the open place at the trestle is the most serious part of the difficulty, according to Mr. Flynt.

Mayor U. S. Wright took up the matter with the Wabash after the last council meeting, pointing out in his letter the objections mentioned above. The company replied that it desires more time. The length of time desired was not stated, but it is understood from talks with various officials of the road by the city engineer that the Wabash wishes to let the matter go until spring, when it is believed that the fill will have settled completely.

After telling Mayor Wright in their letter that the flow of the sewer is so small and that few live in the vicinity whom the odor can inconvenience, the officials of the Wabash state that their engineer has investigated the pollution of the river and has reported that it is negligible.

When the sewer is placed for the 600 feet it will have to be in about a 6-foot cut instead of on a trestle. The Wabash points out to the mayor that the work probably would have to be done all over again if the new sewer was put in now, since further slides of the embankment are expected.

The fill has sunk many feet below the level of the track now and a force of men is kept busy blocking up the trestle work. Mr. Wright said that it is probable that nothing will be done about the matter, as making a railroad company do anything which they do not want to do is rather an endless matter.

It is probable that the affair would have to be fought in the courts and would be dragged out until next spring anyway, when the Wabash will have no objection to replacing the sewer.

WHAT THE GAZETTE THINKS.

From St. Joseph Gazette (Rep.)
Somebody has suggested Judge "Bill" Ellison of Maryville as the nominee of Missouri Democracy for governor next year.

But we do not believe that Judge "Bill" Ellison will be named by the Bourbonism of the state. He is too good a man; Missouri Democracy never in all its existence chose so able a man as its favorite for the high place of executive of the commonwealth. It would be hard to imagine the old party reforming in these latter days.

It is not nice to speak of him as Judge "Bill" Ellison. Yet that is what his constituents call him—out of court. You see, they knew him as "Bill" before he became an occupant of the bench—before, indeed, he had won his splendid spurs as a lawyer. They got to calling him "Bill" when he was just a young fellow trying for honors in practice at the bar. And the more success he won, the greater was the amount of affection all the people who knew him put into that little, homely, inspiring abbreviation of William. And so it went on until, when suddenly "Bill" was elevated—or elevated himself—to the bench of the Fourth judicial circuit of Missouri, they just couldn't learn to refer to him by any other name.

He has been at that post for many years. He is a Democrat, all right—the Lord only knows why. He is as smart as a Republican—and as a public official has a record such as we naturally expect none but Republicans to make. It seems almost uncanny that a Democrat should be that way, doesn't it?

And now they are talking—some of the Democrats—of Judge "Bill" Ellison as their party's nominee for governor of Missouri next year. Of course, though, it is only talk. The leaders won't really permit him to be named.

MAMMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons From Liver and Bowels at Once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing out of once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the California Fig Syrup Co.

He is too good a man. Think how the Democracy of the state would feel supporting a candidate for whom the rank and file didn't feel obliged to apologize with every other campaign breath they drew!

This is great weather for building roads and filling coal bins.

If Roumania determines to throw her half million mountain fighters into the war on the side of the allies, it will be a hard blow to Germany and her allies.

Poor Mrs. Galt. She has gotten into the presidential circle and now she has to be guarded by secret service detectives. Fame is not without its disadvantages.

A man who came across the west half of the county Sunday in a wagon was asked how the roads were. "Fine," he answered, "but I didn't get to use them much for I was out at the side letting autos pass most of the time."

What are fourth district Democrats going to do next year besides run for the congressional nomination?—St. Joseph Gazette.

They are going to elect their nominee.

The German-American press has lost two of its leading men this week. Herman Ridder, editor of the New York Staats Zeitung, and a national character, died Monday, and Edward L. Preterius, publisher of the St. Louis Times and the Westliche Post, committed suicide because of ill health the same day. Both were men of wealth and ability, who had won prominence by hard work.

MARYVILLE HAS THE MAN.

The Democrats had met meetings at St. Joseph, Cape Girardeau, Nevada, Marshall and Hannibal during October and each of them was marked by a great out-pouring of the people, accompanied by genuine enthusiasm. The Democratic voters of Missouri are all of one mind—they want a man for governor in whom the people have confidence. The Democratic candidate for governor should be a man with a vision and an ample supply of judgment and backbone. There is to be another rally at Sedalia next Tuesday. Chillihothe Constitution.

Moberly's Good Roads.

Do you know of finer roads than the Moberly eight mile district oiled roads? We do not bar any make of roads in the comparison either. Not only are they perfect but practically dustless.—Moberly Democrat.

New Grading on Fifth.

Fifth street, between Main and Market streets, is being plowed up and graded this week preparatory to the laying of new sidewalks on the south side. A new walk and curbing was finished on the north side last week.

J. L. Fisher has his new repair shop almost finished at the rear of his home, at the corner of Fourth and Water streets. It is a single story building, 20x40. Everything is ready for occupancy except the laying of the cement floor.

BEST WAYS TO COOK BACON

Meat is Too Frequently Wasted Because Insufficient Thought Is Bestowed Upon It.

Bacon is an extravagant article in the list of cooking materials because of its increased price and the fact that often twice as much is needed as is used for garnishing other foods.

This delectable meat will probably never be low-priced again, yet it will always be a great addition to the menu, so that to know the best ways of using it without waste is a necessity if one is to cook well.

The drippings from bacon are the best sort of shortening for cookies and everyday pastry; therefore, every bit of the fat that renders out in cooking should be strained and saved for such uses. This reduces the first cost of the meat very much, for the shortening bill has soared with the price of pork.

All left-over bacon makes excellent seasoning for meat loaves and may be nicely browned for garnishing by being dipped into egg batter and then into fine crumbs and placed in a hot oven, on a bacon rack, until golden brown.

If you have never broiled bacon on a rack you have a culinary treat in store, for even inferior bacon becomes fine tasting when broiled so and best bacon delicious. Any wire broiler or oven rack may be used; the slices are spread out, just touching, not covering, one another, on it and placed over a dripping pan in a hot oven.

Sometimes bacon is as salty as salt can make it and requires soaking in hot water after it is cut; after such treatment the salt is not too apparent.

The best of sausage can be made at home with the following ingredients: One pound of veal, one pound of fresh pork, one cupful of bacon chopped and one cupful of cracker crumbs. Grind the veal and pork fine, add crumbs and bacon, seasoning of pepper and sage with little salt, as the bacon supplies this. Grind the mixture again and shape into cakes and fry. Cold meat of any sort may be used in place of the veal.

A Toast to the Horse.

We don't know who wrote this toast to the horse, but it is a good one and worthy of being placed beside Senator Vest's famous eulogy on the dog:

"Here's to that bundle of sentiment nerves, with the heart of a woman, the eye of a gazelle, the courage of a slave the proud carriage of a king and the blind obedience of a soldier; the companion of the desert plain, that turns the moist furrows in the spring in order that all the world may have abundant harvest; that furnishes the sport of kings, that with blazing eye and distended nostril fearlessly leads our greatest generals through carnage and renown, whose blood forms one of the ingredients that go to make the ink in which all history is written, and who finally, in black trappings, pulls the proudest and the humblest of us to the newly sodded threshold of eternity."

"THE TRAIL OF THE LONESOME PINE"

Shown at the Empire Theater Tomorrow Night.

"The Trail of the Lonesome Pine," with Olga Worth in the role of June, which comes to the Empire theater on Wednesday, Nov. 3, shows the brilliant and popular dramatist, Eugene Walter, at his best. He has faithfully mirrored the delightful scenes of the book, and the scenic frame and stage setting arranged are gorgeous, indeed.

June's great love for Jack Hale, the jealousy of her cousin, Dave; the rough yet sincere affection of her father, Judd Tolliver; the humorous simplicity of Uncle Billy, and Ole Hun; the quiet strength of Hale; the feudal scenes, the guiding motif of the opposed sides, and the picture of the mountaineer's household, are strikingly impressive by the mobility and breadth of their portrayal.

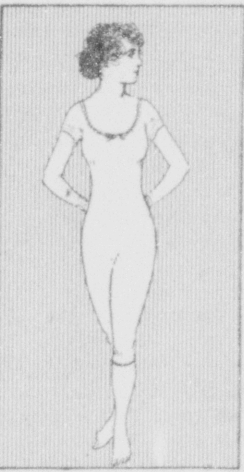

Neither pains nor artistic ability have been spared to give Mr. Walter's play a truly fine presentation, and it enjoyed long run in Boston, Philadelphia and other cities to capacity business. You see what you imagined in the book, the story of romantic love developed in the heart of a primitive girl in the fastnesses of high encircling, purple mountains, the touch of lofty skies, with the lone pine bowing homage to the royal wind, and the mountain brook's silver gleam—June's mirror. The play will be presented by New York cast. The production is a massive one.

"GAZETTE DE FRANCE" QUILTS.

Paper at Paris Almost 300 Years Old, Lost Prestige by War.

Paris, Nov. 2.—The "Gazette" de France of Paris, the oldest French newspaper, has ceased to exist. A week ago the last issue of the venerable sheet appeared, as the Parisians in these troublesome times no longer had any use for it.

The "Gazette" was founded in 1631, and for more than two centuries greatly influenced public opinion, but it lost its power by its ultra-conservative policy. It could or would not understand the aims of modern times, and during the ten or fifteen years it's circle of readers became steadily smaller. Since the present war began it lost the few subscribers it still had, because it did not join the rest of the press in the cry for the destruction of Germany, and even doubted that the triple entente would be victorious.

Reed-Monette Wedding.

The following regarding the wedding of a former Maryville young woman, whose marriage was announced in The Democrat-Forum of October 21, is taken from the Los Angeles (Cal.) Examiner of October 22:

"M. J. Monette, a local banker, and Mrs. Ethel M. Reed, widow of the late H. A. Reed, a former business man of Los Angeles, were married at 7:30 o'clock last evening by Dr. Charles Edward Locke, pastor of the First Methodist church, in the study at the church. A few friends and relatives of the couple were present. Immediately after the ceremony Mr. and Mrs. Monette left for a wedding trip to San Francisco. The bride and groom are members of the First Methodist church. Mrs. Reed is a woman in her early thirties, of striking presence and possessing considerable property. She and Mr. Monette met three years ago when Mrs. Reed lived in her residence at 945 Manhattan place, less than a block from Mr. Monette's handsome home, at 951 Western avenue. A year later Mrs. Reed sold her home and rented the Monette place during his absence in Europe. Mrs. Reed, her cousin, Miss Lillian Clark, and her housekeeper, have continued to occupy the Monette home. Mrs. Reed and her late husband came from Chicago nine years ago. Mr. Reed died four years ago. Mr. Monette is vice president of the Citizens' National bank and Citizens Trust and Savings company and several Los Angeles clubs."

Mrs. Monette is the eldest daughter of Mr. and Mrs. A. T. Clark of the Linville hotel. She and Mr. Monette visited in this city last Christmas.

Unless the silo was sealed or feeding was begun immediately after filling, six inches to a foot at the top is sure to be spoiled. It should be put where it cannot be reached by any

farm animals. Lower down, the presence of spoiled silage always indicates the presence of air as the molds which give it the appearance of rotten manure could not work without air. The lack of sufficient water in filling is the commonest cause of the presence of air, but sufficient tramping in an air-tight structure is also necessary. Red mold which sometimes causes alarm is no more dangerous than the less conspicuous forms which often pass unnoticed. Among the various publications on silage which may be secured by writing to the Agricultural Experiment Station, Columbia, Missouri, are: Bulletin 112, Corn Silage for Fattening Two Year Old Steers; Circular 67, How to Build a Gurler Silo; Circular 72, Silage for Horses and Mules.

CORN LETTER NO. THREE.

What A. R. Hills Has to Say—Save Your Seed Corn and Now Is The Time.

A. R. Hills of this city, issued another corn letter being number three. It is as follows:

It has been some time since I last wrote you in regard to corn raising. It was my intention to have written just before the laying by of the corn so as to drop a few hints that would be useful at that time, but Jupiter Pluvius stepped in at that time and drove us from the field. The continued wet weather caused many to lose all their crops, and interest in the corn got so slack, it seemed best to discontinue the series of Corn Letters until another year.

However, the rains continued, also cloudy weather, which was very favorable to get the spur, or fulcrum roots into the ground and the result was a very good crop on the dry ground.

As I have spoken before of the Primary and Secondary roots, I will now say something of the Spur roots. They are the roots that spring from the first few joints just above the ground. Upon striking the ground they become very fibrous. Then if the ground has been well worked they have a great deal to do with making what we call well filled ears—that is, the grains will be long, and the meat in the kernel will be hard and horn-like to the very crown.

A good corn raiser knows that darkness and wet, cloudy days cause the fulcrum or spur roots to burst from the joints and come to his assistance. Of course the farmer can not cause the days to be wet and cloudy, but he can produce the darkness by throwing the soil to cover the lower joints, during the last plowing.

The Pollen or dust-like substance in the tassels is generally produced in great abundance, but this year the silk or style had to grow and wait a long while on the pollen for fertilization. The early corn had so much silk to grow that in some instances it covered the tip of the ear in such a way that the silk was not all fertilized so the tip was left bare, or was poorly filled as we say.

Among the many things noticed in the corn fields this year, we have the following:

The man who plowed early and deep, turning under a great deal of trash and coarse manure, then Surface planted his corn had a smile on his face that would not come off.

I thought we made \$5.00 per day hoeing corn during the rainy season. Four acres of checked corn could be hoed as easily as one of drilled. The wet weather seemed to beat everything else in preventing the damage by the corn ear worm.

During the recent high wind in the vicinity of Maryville, the checked corn seemed to stand up as well as the drilled.

Saving seed corn is a most necessary thing this year. The time to do it is right now, while you are thinking about it. Visit some man's field who believes in planting in April and lay in a good supply of seed for next spring. It will be very scarce, and the price high.

In spite of all we can do there will be a good deal of sap to stay in the cob which will cause mould to form, which will work out upon the grain and injure it for seed. On this account I advise to have the seed corn all shelled before the holidays.

Those having borrowed seed corn from me may return the same to me at the Normal School Corn Show, the 27th of October, or leave it at my house or any place in Maryville.

Please mark 10 ears to be judged, as this is the best we can do for lack of space.

In case of failure to mark the ears I will select them myself and they will be passed upon by the regular judge at the Corn Show.

The prize money amounts to \$25.50, and as there are but few to compete for it, you can easily win a part of it by taking a little pains.

Rent for a Share.

Both owner and tenant get smaller income from cash rental contracts than when the work is for a share, according to figures gathered from 699 farms in Johnson county by the Missouri College of Agriculture. The man who farmed only his own land made 7.8 per cent on his investment.

Judge Conn to Convention.

Probate Judge W. H. Conn is expecting to go to Sedalia the first week in December for the second annual meeting of the probate judges of Missouri. A two-day session will be held at which former Supreme Judge Henry Lamm of Sedalia will be the principal speaker.

RECEPTION FOR PASTOR AND WIFE IN LAST FAREWELL.

All Organizations of Christian Church Had Speakers on Program at Church Last Night.

A large crowd gathered in the parlors of the First Christian church last night in a farewell reception to Rev. and Mrs. Robert L. Finch, who leave the pastorate of the church to go to Milwaukee next Sunday.

After a social time, during which punch was served, the crowd went into the auditorium, where a program was given. Representatives of all the activities of the church spoke in honor of the former pastor and his wife. They were:

Mrs. C. E. Roberts, C. W. E. M.; Mrs. Henry Westfall, Ladies Aid; Miss Parrish, C. E.; Mrs. H. B. Schuler, Junior C. E.; Miss Bessie Porter, Mary Lawrence Circle; Miss Harriett Van Buren, Mission Circle; F. P. Robinson, Sunday school; Rev. G. S. Cox, president of the Ministerial Alliance, for the other churches.

Miss Gertrude Wright sang a solo, and two duets were given by Mrs. F. P. Robinson and Mr. Cox. Mr. Schuler and Mrs. Finch gave a piano duet, and music throughout the evening was furnished by the orchestra of the Sunday school.

A present of a fifty-dollar gold piece was made to Rev. and Mrs. Finch by Ellis G. Cook on behalf of the friends of the two in the city. A basket of flowers and a lunch for the trip today were presented to the departing friends. Rev. and Mrs. Finch left this morning.

JOPLIN WOMAN IS RESTORED BY REMEDY

Mrs. Hillman Took Treatment Two Years Ago—Has Been Well Ever Since.

Mrs. Ida Hillman of Joplin suffered from stomach ailments for twelve years. She followed the advice of several expert physicians and took a great deal of medicine. Two years ago she discovered May's Wonderful Remedy—and she has been well since. She writes:

"I suffered with stomach trouble almost twelve years. I tried many doctors, but received no help until, while in Cleveland, Ohio, I read your notice in a paper and concluded to try May's Wonderful Remedy. Since then I have felt like a new woman."

"I took only four bottles, but that was all that was needed to make me well. It has been almost two years and I have had no return of my trouble."

May's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

TABLET FOR INDIAN FRIEND OF WHITES

Seattle Professor Seeks to Honor Chief Pat Kanika.

Seattle, Wash.—Professor Edward S. Menny of the University of Washington is arousing public interest in the memory of old Chief Pat Kanika of the Snoqualmie and Snohomish Indians. Chief Pat, a staunch friend of the early whites, is one of the forgotten heroes of pioneer days, and Professor Menny wants his grave marked with a suitable monument.

In the days when settlers had reason to fear the Indians, Chief Kanika was a powerful ally. He was a man of peace, and he is not known just when the chief died, but he was buried on a bank of the Snoqualmie river.

When the grave was threatened by the overflowing river relatives moved the remains to the little cemetery at the Tulalip Indian reservation, where many of the tribes he ruled in peace now live in humble homes.

Sanborn's "History of Washington" tells of the chief's craftiness in driving Glasgow and Rabbeson from the first settlement on Whidbey Island in 1848. He made a great drive with dogs and secured sixty deer for a feast of assembled warriors. He counseled in favor of driving the white men out of the country.

Glasgow and Rabbeson went back to Tumwater, and the next year Pat Kanika led an assault on Fort Nisqually. While Pat Kanika was parleying inside the stockade his brother was killed leading an attack by the Indians. Pat Kanika was spared, and in 1850 he made a trip to San Francisco in a sailing vessel. What he saw on that journey made him resolve to become a friend of the white man. He faithfully lived up to that resolution for the rest of his life.

What Is the Best Remedy For Constipation?

This is a question asked on many times each day. The answer is **Renall Orderlies**.

We guarantee them to be satisfactory to you. Sold only by us, 10 cents.

Oran-Henry Drug Co.

Letter to Mr. E. L. Andrews, Maryville, Mo.

Dear Sir: You sell a good many things by the gallon. Being a decent man, you give full measure.

You know what we mean: you know that short weight and short measure are common among—well, we hope there are no short measures and weights in your town.

There are, though. Ribbons and laces and trimmings, sold by the "dozen," measure nine or ten yards. There is no complaint, because "they all do it." You have the same plague in your goods—nearly everybody, canned or bottled, cheats in the quantity. Almost nobody gives full weight in a factory package!

We are one of the almost nobodies. We sell paint, by the gallon, to paint your house; and our gallon is just the same size as yours that you measure vinegar with—231 cubic inches.

Good paint, too—Devco lead-and-zinc—takes fewer gallons than mixed paint and wears twice as long as lead-and-oil.

You own a house. That's why we are writing to you.

Yours truly,

F. W. DEVCO & CO.,
